**Sunday Nov 01:** Note that in the US, daylight time ends at 2 am. Progress is hard with the Moon opposite Pluto for the early morning, then the Moon sextiles Jupiter. Good feelings, and progress in the little things in life. Invest in the small for the long haul. The Moon squares Uranus: dog and cat fights caused by irritability can spring up. Just agree to disagree and move on. By late afternoon Moon sextile Venus kicks in, easing the way for agreements for mutual benefit. You get an energy boost for the evening as the Moon sextiles Mars.

**Monday Nov 02:** Mercury enters Scorpio. Communications get more probing and intense through the 21st. If you're hiding something, now is when it may out. The Moon enters Leo at 8:48 am. Creative and uncensored feelings open the way for a party atmosphere for the next two days. You can ignore it, or come out to play. Review your plans for hidden misunderstandings and make any adjustments needed with the Moon square Mercury. The Moon trine Saturn for the pm makes it safe to say what you feel, but avoid being a motor mouth. Love, romance and passion are on deck for the evening as Venus conjuncts Mars!

**Tuesday Nov 03:** Last Quarter Moon: Remember yesterday's plan check? Do it again. The Moon trines Uranus (peaking at 7pm). This is a great day for bounding into unexplored territory, and you will find others are doing the same. Inventiveness and originality are favored. Try something new!

**Wednesday Nov 04:** Perfectionism strikes as the Moon enters Virgo at 7:23 pm. If you regularly pick up each stitch, you won't be tripped up over the next few days. If not, watch out for entanglements in small print and minor details that suddenly loom larger if you overlook them. Pay extra attention, as Mercury (ruler of Virgo) is in Scorpio this time.

**Thursday Nov 05:** + Moon square Saturn 'till noon: Sour grapes can be today's flavor, and if you run into something that displeases, just drop it. Moon sextile Mercury will help things run smoothly if you don't mess. The Moon opposite Neptune can generate emotional foginess.

Keep tighter focus until work is over. There is a great trio of aspects for the evening: the Sun sextiles Pluto giving you quiet self-confidence, allowing progress without interference, then the Moon trines Pluto – a perfect time for starting things that require sustained confidence and follow-through. These are followed by the Moon sextile the Sun, granting the space to take things easy!

**Friday Nov 06:** + Mercury trines Neptune: It's easier than usual to put difficult and elusive concepts into words and put them to work for the general benefit. If you have a dream, now you can speak about it and people will understand. Listen to the same from others, who now have the same opportunity to share their inner visions and unite with you. Moon conjunct Jupiter - This most fruitful day has the potential to give birth to all kinds of positive ideas and feelings. Emotions burst out into laughter or song, playfulness abounds, and there can seem like there is no limit to what's out there for you. Take the ball and run with it now and you'll go far!

**Saturday Nov 07:** The Moon square Mars (exact at 1:25 am) has extra potential for accidents. Rash moves, overblown feelings, emotional conflict, and anger can be lurking around the corner, so today's a good day to take it easy and not push. The Moon conjunct Venus opens the way to love and desire. The Moon enters lovely Libra at 8:15 am. The next two days are a great time for socializing. Lively and pleasant interaction is in the air. The Moon sextile Saturn this evening provides a stable but cool emotional environment.

**NOTES:** All times are Pacific Time.

**Longer Term: Venus entered Virgo** the 8th and stays until November 9th. Everyone is a little too finicky, sometimes to their own detriment.
